## Water, Water Everywhere!

Hola Amigos,

There is nothing like being a kid and playing in the water! As we struggle to drill as many water wells in Nicaragua as we can, it is nice to know that water will not be a problem in Villa Catalina. A water balloon fight with the children was one of the many highlights of our mission trip with Marist High School this month. It's fun to be a kid...

...and as Sister Paula shared her dreams for the children she cares for at the Corazon de Maria orphanage, she told us how important a well would be ...so we drilled... and God blessed us with a great well! Here is Sister Paula, the kids, and her new well. It will not only provide drinking water, but will also irrigate the crops and fruit trees that will help sustain the orphanage.

### The Villa Catalina Library is Open!

Debbie Thompson, a very faithful long-term volunteer, and her family, have provided one of the most awesome gifts you can give a child...a library. The library is now open for the students at Villa Catalina! Please read [more...](#)

## Pedal for the Poor 2006!

Our 6<sup>th</sup> annual Pedal for the Poor is almost here! On April 22<sup>nd</sup>, hundreds of children and adults will descend upon Suwanee Town Center Park to raise money for our feeding programs in Nicaragua. [Here's how you can help...](#)
